

The **Carlisle Youth Initiative (CYI)** strengthens Carlisle's future by uniting community partners to help **ALL** our local youth succeed with their education, development, and job search.

Select Carlisle students, with financial need, for scholarships (career technical training, college); raise money to fund these scholarships; inform the community; maintain accountability

Identify youth needing help to achieve their potential, mentor them and connect them with appropriate community programs and resources to develop their skillsets and experiences

Help Carlisle-area students complete applications for internships, apprenticeships, career training programs, college, financial aid, scholarships, and jobs; conduct interview and soft skills preparation training

Facilitate community-wide sharing of information about programs, events, and resources that help children and their families in Carlisle
